The Gnowangerup CRC is a Not-for-profit community organisation that is able to provide Services to the Gnowangerup & surrounding communities by way of funding received by

The Department of Primary Industries & Regional Development.

The funding is limited and does not cover all of the costs for providing these vital services, so we here at the CRC are trying to come up with ways to receive additional financial support to continue providing these services.

The CRC has registered with CBH to be able to receive donations. Where a grower has delivered grain & sold that grain to a marketer, they can choose a Charitable Organisation to receive some of the proceeds of the grain.

By donating to the Gnowangerup CRC your money will go towards energising the sustainability of the Annual Gnowangerup Summer Fair. This event is the one major event that is held in our community & is heavily subsidised by the Gnowangerup CRC along with funders, Shire of Gnowangerup and Lotterywest.

Any additional donations will ensure the Fair continues to grow at a sustainable rate for all to enjoy.

#### How to donate to your Grass Roots

##### **LoadNet process**

1. Grower who has delivered the grain to CBH logs into their LoadNet account.
2. Click on **Transactions** tab & **Load Donation** tab.
3. Select Gnowangerup CRC from the list. **Grower Number 40434383.**
4. Enter the nomination details (acquirer, payment method, destination site) & select loads & complete nomination.

# VOICE. TREATY. TRUTH.

**We invite you to walk with us in a movement of the Australian people for a better future.**

The Indigenous voice of this country is over 65,000 plus years old.

They are the first words spoken on this continent. Languages that passed down lore, culture and knowledge for over millennia. They are precious to our nation.

It's that Indigenous voice that include know-how, practices, skills and innovations - found in a wide variety of contexts, such as agricultural, scientific, technical, ecological and medicinal fields, as well as biodiversity-related knowledge. They are words connecting us to country, an understanding of country and of a people who are the oldest continuing culture on the planet.

And with 2019 being celebrated as the [United Nations International Year of Indigenous Languages](#), it's time for our knowledge to be heard through our voice.

For generations, we have sought recognition of our unique place in Australian history and society today. We need to be the architects of our lives and futures.

For generations, Aboriginal and Torres Strait Islander peoples have looked for significant and lasting change.

Voice. Treaty. Truth. were three key elements to the reforms set out in the [Uluru Statement from the Heart](#). These reforms represent the unified position of First Nations Australians.

However, the Uluru Statement built on generations of consultation and discussions among Indigenous people on a range of issues and grievances. Consultations about the further reforms necessary to secure and underpin our rights and to ensure they can be exercised and enjoyed by Aboriginal and Torres Strait Islander peoples.

It specifically sequenced a set of reforms: first, a First Nations Voice to Parliament enshrined in the Constitution and second, a Makarrata Commission to supervise treaty processes and truth-telling.

([Makarrata](#) is a word from the language of the Yolngu people in Arnhem Land. The Yolngu concept of Makarrata captures the idea of two parties coming together after a struggle, healing the divisions of the past. It is about acknowledging that something has been done wrong, and it seeks to make things right.)

Aboriginal and Torres Strait Islander people want their voice to be heard. First Nations were excluded from the Constitutional convention debates of the 1800's when the Australian Constitution came into force. Indigenous people were excluded from the bargaining table.

Aboriginal and Torres Strait Islander peoples have always wanted an enhanced role in decision-making in Australia's democracy.

In the European settlement of Australia, there were no treaties, no formal settlements, no compacts. Aboriginal and Torres Strait Islander people therefore did not cede sovereignty to our land. It was taken away from us. That will remain a continuing source of dispute.

Our sovereignty has never been ceded – not in 1788, not in 1967, not with the Native Title Act, not with the Uluru Statement from the Heart. It coexists with the sovereignty of the Crown and should never be extinguished.

Australia is one of the few liberal democracies around the world which still does not have a treaty or treaties or some other kind of formal acknowledgement or arrangement with its Indigenous minorities.

A substantive treaty has always been the primary aspiration of the Aboriginal and Torres Strait Islander movement.

Critically, treaties are inseparable from Truth.

Lasting and effective agreement cannot be achieved unless we have a shared, truthful understanding of the nature of the dispute, of the history, of how we got to where we stand.

The true story of colonisation must be told, must be heard, must be acknowledged.

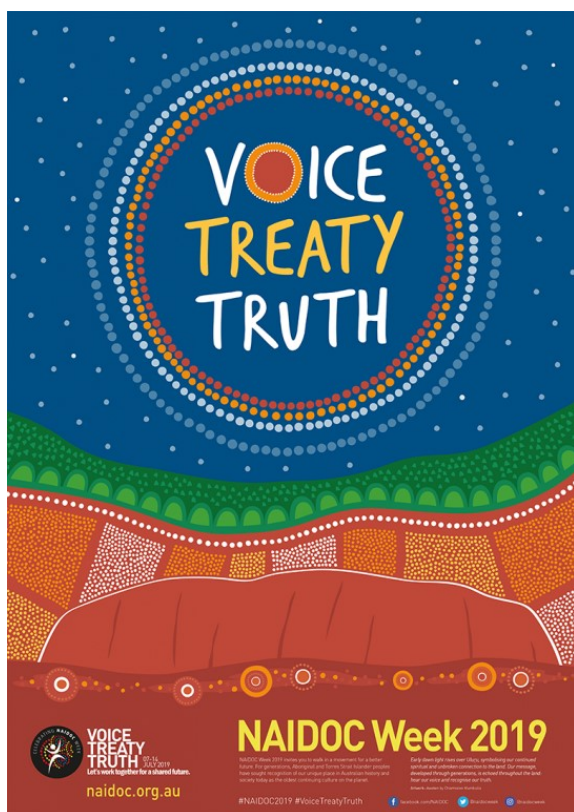

But hearing this history is necessary before we can come to some true reconciliation, some genuine healing for both sides.

And of course, this is not just the history of our First Peoples – it is the history of all of us, of all of Australia, and we need to own it.

Then we can move forward together.

# Naidoc Day at Gnowangerup DHS.

Gnowangerup District High School participated in next week's Naidoc week a little early on the Tuesday 3rd July 2019, the day was filled with amazing activities for the children. The activities consisted of Aboriginal Design (AFL Shirt) where the kids learnt about Sir Douglas Nicholls and the significance of the Indigenous AFL round and designing their own AFL jumpers.

Students also had the opportunity to walk through the displays in the Aboriginal Corporation Museum and learning about the history of the Noongar people in the Gnowangerup area. Robbie Minter did an amazing job with engaging with the children.

The TLG students from Edith Cowen University attended the GDHS to help with the Naidoc event, they helped with all the activities throughout the day and were very useful.

Students also enjoyed making damper and tasted bush tucker – kangaroo patties, Quandong jam and lemon myrtle. They looked so content eating every bit of their meal with students saying "Delicious" and licking their lips.

In the Music class the students learnt about Naidoc 2019 theme: Voice, Treaty and Truth. Mrs Gugiatti educated the children by analysing a Paul Kelly song "From big things little things grow". The song is based on the story of The Gurindji Strike and Vincent Lingiari and describes how the Gurindji people's claim sparked the Indigenous land rights movement.

The day was very informative and celebrated this year's Naidoc theme: Voice, treaty and truth.

**It's time to stop talking about vegans.**

The Liberals and Nationals remain fixated on the vegan activist and his group.

Each week, we see the Coalition again trying to promote fear across farming areas that a mass protest of vegans could arrive at any time, and it's somehow all Labor's fault.

This seemingly endless promotion continues in Parliament and in the rural media.

They are giving attention to a person who craves it, promoting the cause and emboldening him to push harder.

Enough is enough. We need to stop talking about him now.

As a farmer myself, I can tell the Liberal/Nationals that there are concerns in Agriculture, but vegans are nowhere near the top of the list.

In fact, not one farmer has ever raised concerns about vegan protesters with me. Country people are more concerned about the weather and who is dealing methamphetamine in their communities than vegan activists.

There are existing trespass laws in place, and the Attorney General has given an undertaking to review these and change as necessary.

While the Coalition remains fixated on an attention seeking protester and how he pays his fines, our Government is getting on with what really matters.

Farming communities need better broadband services - we're getting on with that.

Farming communities require better roads - we're getting on with that.

Farming communities want better health, mental health, education and training services - we're getting on with those.

Farming communities want us to help rebuild the sheep industry by investing in the control of wild dogs - we're getting on with that.

Farming communities want more research into crops and the better varieties of the future - we're getting on with that.

Farming communities want us to keep Western Power in public hands and not sell it off in a fire sale - we're doing that.

Regional communities want us to manage the state's finances in a responsible manner and fix the Budget mess created by the Barnett Liberal/National government for a stronger economic future - we're getting on with that.

WA Labor now has more regional MPs than any other party. Our MPs live in the regions and are listening to understand what our constituents want from us.

If you want to make things happen in regional WA then contact your local WA Labor Member of Parliament.

Welcome back Edith, from your exciting adventures in the United Kingdom!

Edith has returned from her 5-week trip to the other side of the world and has kindly shared her experiences with us.

The first week of her holiday was spent in London with her four sisters. They shared a Bed and Breakfast in Notting hill during this time. Edith really enjoyed staying in B & B's and continued to do this throughout the UK trip. She and her four sisters enjoyed the usual sightseeing on the open-top bus, with a light drizzling of rain that did nothing to stop them from seeing the sights of London. A busy week, they visited Hyde Park, St Paul's Cathedral, and the Tower of London. Edith also enjoyed a delicious chocolate tour and High Tea in the Kensington Gardens. The London Zoo was also a fun tourist destination. Edith has a passion for animals and while visiting the zoo came across many spectacular wall murals. During Edith's trip, she and her sisters were lucky enough to be in London when Prince Harry and Megan Markle announced the birth of their son! A very special moment in History!

When their week in London was finished, the sisters went their separate ways and Edith continued to explore England by herself. Spending two nights in each place on average she utilised the amazing public transport system. Edith says this was very

easy to do, as the transport staff in the UK are very friendly and helpful, she highly recommends this as the best way to travel. From London she went to see the Sussex war museum, and up to Bristol to see the Bookbarn, a treasure trove of old books. Edith was hoping to find some old English recipe books but was unable to find any unfortunately. Venturing into the south of Wales, Edith visited a donkey rescue farm, which turned out to have lots of interesting history. When women and children were not allowed to work in the mines people used donkeys because they are able to carry twice their own body weight.

This led to mistreatment of the donkeys, but thankfully there is a place of safety for them now. While in the UK, Edith won a game of Bingo and pocketed \$550.00. She put this prize money to good use when she rode first class on a steam train ride while in the town of Merthyr Tydfil, Wales. It was a picturesque day, with vibrant green grass and clear blue sky.

After, Edith travelled all the way to Leeds and visited the West Yorkshire Archive Service to find a few of her ancestors in the United Kingdom. During her stay in Leeds, Edith admired the enormous collection of street art displayed throughout the city. She ended up walking at least 5km, just marvelling at the creative works and taking countless photos to share with her friends and family!

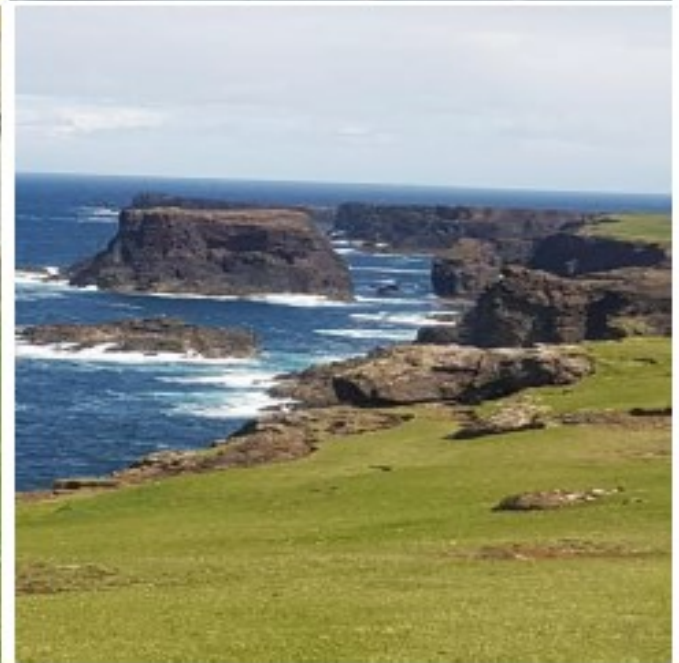

From Leeds, Edith travelled to the town of Ayr, Scotland. Fun Fact: Ayr is where Kirsty from the Gnowangerup Shire grew up! Edith tells me that there are, surprisingly, many golf courses in this area!

Edith's favourite part of the trip was visiting the Shetland Islands! From Aberdeen, Scotland she took a lengthy 12-hour ferry ride to get there. Edith stayed in a lovely B&B in Scalloway, the largest island of the Shetland Islands. The old Shetland Castle was located very near to Edith's B&B, so she was able to explore it very easily. The ruins were very fascinating to Edith as they were made from only stones. This, Edith says, would be her dream home, as

she is passionate about the country lifestyle and the great outdoors. Everything from the metalwork, to the beautiful coastlines and green scenery inspired and excited Edith. She soon learned that there are no trees on the island because harsh winds prevent them from growing. Instead of wood for the fire they use something called peat; decomposed matter formed into bricks. Edith enjoyed the Shetland Islands so much that she plans to visit again in 2 years' time!!!

From the Shetland islands Edith went to Edinburgh and walked the Royal Mile, which is apparently quite a steep incline, according to Edith. While in Edinburgh, Edith visited the Royal mile armouries. Edith returned to London to conclude her UK holiday and visited Windsor Castle to see the changing of the guards as one of her final experiences in her UK holiday.

An 18-hour stopover in Dubai allowed Edith to explore the "opulent", as Edith describes it, Dubai Mall. Edith was amazed with just how luxurious everything was.

Now Edith is back in Gnowangerup and settling in with family and friends once again.

Edith has been living in Gnowangerup for 30 years now, and her favourite thing about living here is the country lifestyle.

Edith Robertson grew up on a dairy farm in Bundalaguah, Victoria with her four sisters. Edith loved growing up in the country and feels that "all kids should grow up in the countryside". Her role models in life are her mum, who was very crafty and her dad, who was a farmer, both of which were very hard workers. Qualities Edith values very much to this day.

Edith was married at 16 years old and had 4 kids; 3 boys and a girl.

Edith has had a wide variety of jobs in her lifetime. From being a hotel cook to a lab tech, etc. but Edith's very favourite job was being a truck driver for the mines in Kambalda West. She learned many life skills there and her personal saying "if you don't ask, you'll never find out" was picked up during this job. Everyone can have common sense, but everyone's perspective is different, and therefore "if you don't ask, you'll never find out" what someone else truly is thinking.

Edith has many hobbies, for example crafting, repurposing and gardening to name a few. She is truly passionate about recycling and repurposing. Everything should have a second, and sometimes third, use. Edith enjoys using recycled objects in her craft projects in a creative way. Edith is a regular member of the 'Crafted Yarn' and enjoys getting some craft done and hanging out with friends. Gardening is also a fun activity that Edith loves to do because she can grow her own vegetables and live off the land in a sense.

*Edith loved visiting the Kensington Gardens! Everything in England is so green and vibrant!*
